

TELHAN SATHI

Buyer Features – User Manual

Introduction

This manual explains the main features available to buyers in Telhan Sathi. Each section describes what the feature does, how to use it, and practical tips in clear, everyday language.

1. Registration & Login

What it does: Lets you create a buyer account and verify your contact so you can bid on auctions.

How to use: Register with your phone or email, confirm the OTP, and complete your delivery details.

Why it matters: Verification builds trust and speeds up transactions.

Tip: Enter a complete delivery address to help farmers plan logistics.

2. Dashboard

What it does: Your central screen showing active bids, won auctions, watchlist, and messages.

How to use: Use dashboard tiles to navigate quickly between features.

Why it matters: Keeps all buying activity organized.

Tip: Review the dashboard near auction end times.

3. Browse & Bid

What it does: Search and filter auctions by crop, location, quantity, and price.

How to use: Open an auction, review details, enter your bid, and submit.

Why it matters: Helps you find relevant lots quickly.

Tip: Prefer nearby locations to reduce transport costs.

4. Bid Management

What it does: Shows your active bids, highest bid status, and outcomes.

How to use: Track bids in the My Bids section.

Why it matters: Helps control spending and avoid overbidding.

Tip: Decide your maximum bid in advance.

5. Saved Auctions (Watchlist)

What it does: Save auctions to follow without bidding immediately.

How to use: Click the Watch icon on an auction page.

Why it matters: Makes comparing lots easier.

Tip: Watch multiple similar lots before bidding.

6. Chat with Farmers

What it does: Direct messaging with farmers for clarification.

How to use: Use in-auction chat to confirm quality, pickup, and terms.

Why it matters: Reduces misunderstandings and disputes.

Tip: Confirm pickup time before final payment.

7. Account Management

What it does: Manage your profile and delivery addresses.

How to use: Update details from Account or Settings.

Why it matters: Prevents delays and missed pickups.

Tip: Keep multiple delivery addresses if you buy for different locations.

AI / ML Features

ARIMA Price Forecasting: Shows price trends to help plan purchases.

Profitability & ROI: Displays estimated profit for resale or processing.

Closing Notes

Use these features to buy quality produce at fair prices and maintain clear records. For support, contact help with auction ID and brief details.
